## INDEPENDENT AUDITOR'S REPORT

April 4, 2019

Board of Directors  
Edgemont Ranch Metropolitan District

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of Edgemont Ranch Metropolitan District, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of Edgemont Ranch Metropolitan District as of December 31, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

**Other Matters***Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Edgemont Ranch Metropolitan District's basic financial statements. The supplemental budget and actual schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental budget and actual schedules are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental budget and actual schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Management's Discussion and Analysis

December 31, 2018

As management of the Edgemont Ranch Metropolitan District ("District") we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended December 31, 2018.

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains additional information to supplement the basic financial statements.

**Government-wide financial statements:** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Position presents information on all the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (i.e. uncollected taxes.)

The government-wide financial statements distinguish functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the District include general government, roads, and interest on long-term debt. The business-type activities of the District are water and wastewater services.

The government-wide financial statements can be found on pages 7 and 8 of this report.

**Fund financial statements:** A fund is an accountability unit used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds, and proprietary funds.

**Governmental funds:** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements and commitment of spendable resources for the near-term. The two governmental funds maintained by the District are the General Fund and the Debt Service Fund.

## Overview of the Financial Statements (continued)

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District adopts an annual appropriated budget for each fund as required by Colorado statutes. Budgetary comparison statements have been provided to demonstrate compliance with these budgets. The basic governmental fund financial statements are found on pages 9 – 11 of this report.

**Proprietary funds:** The District maintains two proprietary funds. The District uses the Water Fund to account for its water treatment plant and distribution system and the Sewer Fund to account for its sewer treatment plant and collection system.

These proprietary funds encompass the same functions reported as business-type activities in the government-wide financial statements, only in more detail. As of December 31, 2018, the District is providing water and sewer services to 563 residences, with an additional 152 unimproved lots yet to be built on. The basic proprietary fund financial statements can be found on pages 12 - 14 of this report.

**Notes to the Financial Statements:** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The Notes to the Financial Statements can be found on pages 15 - 26 of this report.

## Government-wide Financial Analysis

The following table provides condensed financial information derived from the government-wide financial statements for the years ended December 31, 2018 and 2017 to show the changing net position of the District. The District's net position at the end of 2018 is \$12,746,186 (page 7).

| Unrestricted (deficit)                | 247,202            | 190,342            | 56,860          | 30%         | 884,365            | 754,547             | 129,818           | 17%        |
| <b>Total Net Position</b>             | <b>\$4,496,012</b> | <b>\$4,412,206</b> | <b>\$83,806</b> | <b>2%</b>   | <b>\$8,250,174</b> | <b>\$ 7,596,477</b> | <b>\$ 653,697</b> | <b>9%</b>  |

The District as a whole maintained a positive current ratio of 11.8 to 1, which compares current assets to current liabilities as an indicator of the District's ability to pay current obligations. The governmental fund has a current ratio of 12.3 to 1 and business-type funds are at 11.7 to 1..

Note that 85% of the governmental funds total assets are tied up in capital assets, comprised mainly of roads and equipment to maintain them. The business-type funds have 60% of total assets tied up in capital assets. These capital assets are comprised mainly of water / sewer infrastructure and treatment plants to serve residents. In 2017 the sewer fund acquired a loan in the amount of \$4.5 million to cover costs to build a new sewer treatment plant, necessary to meet new state treatment standards. The plant is currently in design stage and will be completed in 2020. These loan proceeds make up a large portion of the current assets.

The District has maintained a positive balance in all funds. Net position in governmental and business-type activities increased by \$83,806 and \$653,697 respectively, for a total increase of \$737,503. The increase in governmental activities comes mainly from tax revenue, fees to maintain roads and developer donated assets. The increase in business-type activities are due to water / sewer revenues and developer donated assets. A raise in sewer rates was initiated effective January 1, 2018 to cover loan costs. This, along with fees collected on 17 additional lots developed in 2018, account for the 43% increase in sewer rates from 2017.

The table below compares the District's Activities for 2017 and 2018 and summarizes the District's net position.

**Governmental revenues:** The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported a combined ending fund balance of \$485,638, an increase of \$70,177 from the prior year (page 9). Of the fund balance, \$8,415 is non-spendable because it consists of prepaid expenses. \$7,316 is restricted, meaning it is not available for new spending because it has already been committed for emergencies under the Taxpayers' Bill of Rights (TABOR). An additional \$231,120 is restricted for future road maintenance. \$66,705 is assigned for debt service. The remaining \$172,082 is unassigned and is available for spending in future years.

**Proprietary funds:** The District's proprietary funds statements (pages 12-14) provide the same type of information found in the government-wide financial statements, but in more detail.

The net position of the proprietary funds totaled \$8,250,174 at the end of 2018 as compared to \$7,596,477 at the end of 2017. At the end of 2018, \$7,365,809 of this balance was invested in capital assets net of related debt and \$884,365 was available for spending at the District's discretion.

**Budget variances:** Details of the budget variances can be seen on page 27 for the debt service fund and pages 28-29 for the proprietary funds.

**Capital assets:** The District invested \$150,706 in capital asset additions during 2018. These investments included sewer camera equipment and construction in progress for the new sewer plant. The District also received developer donated assets of water and sewer and roads infrastructure in the amount of \$346,866. Depreciation expense of \$385,221 was recognized in 2018. Additional information as well as a detailed classification of the District's net capital assets can be found in the Notes to the Financial Statements on pages 22 and 23 of this report.

**Long-term debt:** The District reduced its outstanding long-term debt balance by \$428,551, bringing the 2018 year-end balances to \$300,117 in Governmental Activities and \$5,108,734 in Business-type Activities. Additional information can be found in the Notes to the Financial Statements on pages 23 and 24 of this report.

### **Request for Information**

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Edgemont Ranch Metropolitan District, 5972 County Road 234, Durango, CO 81301, phone (970)259-3102.

Edgemont Ranch Metropolitan District  
NOTES TO FINANCIAL STATEMENTS

December 31, 2018

---

**SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

1. Organization

The Edgemont Ranch Metropolitan District (the “District”) was organized by judicial decree on July 13, 1983. The District is a quasi-municipal corporation and political subdivision of the State of Colorado organized pursuant to the requirements of the Special District Act. The District was formed to provide certain public infrastructure and municipal services for the benefit of the residents and property owners within the District. The District is located within La Plata County, Colorado. The governing body of the District is elected by the registered voters within the District and consists of a five-member board of directors.

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (“GAAP”) as applied to governmental units. The Governmental Accounting Standards Board (“GASB”) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District’s accounting policies are described below.

2. Reporting Entity

The reporting entity consists of (a) the primary government; i.e., the District, and (b) organizations for which the District is financially accountable. The District is considered financially accountable for legally separate organizations if it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the District. Consideration is also given to other organizations which are fiscally dependent; i.e., unable to adopt a budget, levy taxes, or issue debt without approval by the District. Organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete are also included in the reporting entity.

Based on the criteria above, the District is not financially accountable for any other entity, nor is the District a component unit of any other government.

3. Government-wide and Fund Financial Statements

The District’s basic financial statements include both government-wide (reporting the District as a whole) and fund financial statements (reporting the District’s major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. Currently, the District has governmental and business-type activities.

Edgemont Ranch Metropolitan District  
NOTES TO FINANCIAL STATEMENTS

December 31, 2018

---

Government-wide Financial Statements

In the government-wide Statement of Net Position, the governmental activities column is reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debts and obligations. The District's net position is reported as net investment in capital assets; restricted for emergencies; restricted for road maintenance; and, unrestricted.

The government-wide focus is on the sustainability of the District as an entity and the change in the District's net position resulting from the current year's activities.

Fund Financial Statements

The financial transactions of the District are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self balancing accounts that comprises its assets, liabilities, fund balances, revenues, and expenditures/expenses.

The fund focus is on current available resources and budget compliance.

4. Fund Accounting

The District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The District currently has a General Fund and a Debt Service Fund, which are governmental funds, and a Water Fund and a Sewer Fund, which are proprietary funds.

Governmental Funds

Governmental funds are those through which most governmental functions typically are financed. Governmental funds reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance.

The District reports the following major governmental funds:

General Fund – The General Fund is used to account for all financial resources of the District except those required to be accounted for in another fund.

Debt Service Fund – The Debt Service Fund is used to account for debt service resources and transactions of the District except those accounted for in the proprietary funds.

Edgemont Ranch Metropolitan District  
NOTES TO FINANCIAL STATEMENTS

December 31, 2018

---

### Proprietary Funds

Proprietary funds account for operations that are financed and operated in a manner where the intent of the District is that the costs of providing goods and services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the District has decided that periodic determination of revenue earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. Operating revenues and expenses for enterprise funds are those that result from providing services. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The District reports the following major proprietary funds:

Water Fund – The Water Fund accounts for operations of the District’s water treatment plant and distribution system.

Sewer Fund – The Sewer Fund accounts for the operations of the District’s sewer treatment plant and collection system.

### 5. Measurement Focus and Basis of Accounting

Measurement focus refers to whether financial statements measure changes in current resources only (current financial focus) or changes in both current and long-term resources (long-term economic focus). Basis of accounting refers to the point at which revenues, expenditures, or expenses are recognized in the accounts and reported in the financial statements.

#### Long-Term Economic Focus and Accrual Basis

Governmental activities in the government-wide financial statements use the long-term economic focus and are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of the related cash flows.

#### Current Financial Focus and Modified Accrual Basis

The governmental fund financial statements use the current financial resources focus and are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. “Available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized when the related liability is incurred. The exception to this general rule is that principal and interest on long-term debt, if any, is recognized when due.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted assets first, then unrestricted resources as they are needed.

Edgemont Ranch Metropolitan District  
NOTES TO FINANCIAL STATEMENTS

December 31, 2018

---

The accrual basis of accounting is utilized in the proprietary fund type. Revenue is recognized when earned and expenses are recognized when the liability is incurred. Depreciation is computed and recorded as an operating expense and expenditures for property and equipment are shown as increases in assets.

6. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

7. Stewardship, Compliance, and Accountability

Budgets and Budgetary Accounting

In the fall of each year, the District's Board of Directors formally adopts a budget with appropriations by fund for the ensuing year pursuant to the Colorado Local Budget Law. The budget for the governmental fund is adopted on a basis consistent with generally accepted accounting principles ("GAAP"). The budget for the proprietary fund is adopted on the budgetary basis of accounting, which differs from the GAAP basis in that depreciation and amortization are excluded from expenditures, and outlays for the acquisition of capital assets and debt service principal are included as expenditures.

As required by Colorado statutes, the District followed the timetable below in approving and enacting the budgets for the ensuing year:

- (1) Prior to August 25, the County Assessor sends the District the assessed valuation of all taxable property within the District's boundaries.
- (2) On or before October 15, the District's accountant submits to the District's Board of Directors a recommended budget which detailed the necessary property taxes needed along with other available revenues to meet the District's operating requirements.
- (3) The Board holds a public hearing on the proposed budget and capital program no later than 45 days prior to the close of the fiscal year.
- (4) Prior to December 15, the District computes and certifies to the County Commissioners a rate of levy that derives the necessary property taxes as computed in the proposed budget.
- (5) Prior to December 31, the final budget and appropriating resolution is adopted.
- (6) After adoption of the budget resolution, the District may make the following changes: a) it may transfer appropriated monies between funds or between spending agencies within a fund,

Edgemont Ranch Metropolitan District  
NOTES TO FINANCIAL STATEMENTS

December 31, 2018

---

as determined by the original appropriation level; b) supplemental appropriations to the extent of revenues in excess of those estimated in the budget; c) emergency appropriations; and d) reduction of appropriations for which originally estimated revenues are insufficient.

Amounts originally appropriated by the District for 2018 were as follows: General Fund (\$265,935), Debt Service Fund (\$63,292), Water Fund (\$502,492), and Sewer Fund (\$1,152,707). The District made supplemental appropriations for 2018 as follows: Water Fund (\$35,008).

The level of control in the budget at which expenditures exceed appropriations is at the fund level. All appropriations lapse at year-end.

8. Capital Assets

Capital assets are reported in the applicable governmental activities columns in the Government-wide Financial Statements. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are completed.

Depreciation is computed using the straight-line method over estimated useful lives, as follows:

|                        | <u>Estimated Lives</u> |
|------------------------|------------------------|

9. Property Taxes

Property taxes for 2018, collectible in 2019, were certified by the La Plata County Commissioners before December 31, 2018. Property taxes attached as an enforceable lien on January 1, 2019 and are due in total April 30, 2019 or in equal installments February 28, 2019 and June 15, 2019, at the option of the taxpayer. Property taxes for 2018, collectible in 2019, are shown as property taxes receivable and deferred property tax revenue on the statement of net position in the amount of the assessed taxes. The County Treasurer remits taxes collected monthly to the District.

Edgemont Ranch Metropolitan District  
NOTES TO FINANCIAL STATEMENTS

December 31, 2018

---

10. Accounts Receivable

The District considers accounts receivable to be fully collectible. Accordingly, no allowance for doubtful accounts is required.

11. Cash and Cash Equivalents

For purposes of the statement of cash flows, the District considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents.

12. Classification of Fund Balance

In the governmental fund (general fund and debt service fund) financial statements fund balance is reported in five classifications.

**Nonspendable:** Prepaid expenses represent fund balance amounts that are not in spendable form.

**Restricted:** The Colorado Constitution as amended by TABOR (see separate TABOR amendment note) requires local governments to establish emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases.

Voters approved an increase in property taxes for the District that is to be used for road maintenance. The fund balance related to amounts not yet spent is reported as restricted.

It is the District's policy to use restricted fund balance first when an expense is incurred for which both restricted and unrestricted fund balance are available.

**Committed:** Committed is that portion of fund balance that has been committed by the highest level of formal action of the District's Board of Directors and does not lapse at year-end. The District does not have any committed fund balance at year end. It is the District's policy to use committed fund balance first when an expense is incurred for which both restricted and unrestricted fund balance are available.

**Assigned:** Assignments of fund balance are designated by District management. Fund balance in the Debt Service Fund is assigned for future debt service.

**Unassigned:** Fund balance that has not been reported in any other classification is reported as unassigned.

---

**CASH AND INVESTMENTS**

The District maintains a cash pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the statement of net position as "Equity in pooled cash and investments."

Deposits

At year-end, the carrying amount of the District's cash deposits was \$5,701,063 and the bank balance was \$5,742,576. The bank balance was covered by federal depository insurance or collateralized as discussed in the next paragraph.

Statutes require that any public depository which accepts and holds public funds maintain, as security for public deposits accepted and held by it, not insured by federal depository insurance, eligible collateral having a market value, at all times, equal to at least 102 percent of the amount of public deposits. Banking institutions are monitored by the State of Colorado Banking Commission and must report monthly on all public deposits held. Pledged collateral must be held in joint custody of the bank and of the Public Deposit Protection Act in a safekeeping account held by a third party, usually the Federal Reserve Bank. The pledged collateral cannot be released unless approval is obtained by the banking commission. Savings and Loan institutions are monitored by the State of Colorado Commissioner of Savings and Loan Associations and must report quarterly on all public deposits held. Pledged collateral, usually in the form of mortgages, must be held by a third party institution for the benefit of the commissioner.

Investments

Colorado state statutes authorize the District to invest in U.S. Treasury bills, obligations of any other U.S. agencies, obligations of the World Bank, general obligation bonds of any state or any of their subdivisions, revenue bonds of any state or any of their subdivisions, bankers acceptance notes, commercial paper, repurchase agreements, money market funds and guaranteed investment contracts. All investments must be held by the District, in their name, or in custody of a third party on behalf of the local government.

At December 31, 2018, the District had no investments.

2014 General Obligation Refunding Loan in the face amount of \$510,000 was issued with a date of May 1, 2014. The interest rate is 3.75% and principal and interest payments of \$5,116 are made monthly through May, 2024.

The District has incurred an obligation to Rancho Durango, Ltd. for the use and ultimate ownership of certain infrastructure of the District including water and sewer treatment facilities and distribution and collection systems, land, buildings, and easements that are integral to the operation of the District. The agreement requires monthly payments equal to 25% of water and sewer fees collected in excess of \$8,000 for that month. The final monthly payment is due in May, 2020. The obligation is presented in the District's financial statements at the net present value of the estimated future payments, discounted at the District's estimated borrowing rate at the date of the transaction of 7.5%.

2014 Water Revenue Loan in the face amount of \$1,000,000 was issued with a date of May 1, 2014 and amended on December 12, 2014. The interest rate is 3.75% and principal and interest payments of \$10,185 are made monthly through May, 2024. The loan is secured by the net revenues of the water fund of the District.

2017 Sewer Revenue Loan in the face amount of \$4,500,000 was issued with a date of June 13, 2017. The interest rate is 3.375% and principal and interest payments of \$10,185 are made monthly through May, 2027. A balloon payment is due June, 2027. The loan is secured by the net revenues of the water fund of the District.

The District entered into a capital lease with TCF Equipment Finance, Inc. to acquire a jetter. The lease requires semi-annual payments of \$6,885, including interest at 3.15%, through December, 2018. The lease

Edgemont Ranch Metropolitan District  
NOTES TO FINANCIAL STATEMENTS

December 31, 2018

was paid off during 2018. The asset has been capitalized with a cost of \$64,209 and has accumulated depreciation of \$19,264 at December 31, 2018.

The debt service requirements for the 2014 General Obligation Refunding Loan is as follows:

| <u>Year</u> | <u>Principal</u>  | <u>Interest</u>  | <u>Total</u>      |

**COMMITMENTS AND CONTINGENCIES**

During the normal course of business, the District may incur claims and other assertions against it from various agencies and individuals. Management of the District believes that there are no material outstanding claims against the District at December 31, 2018.

**RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omission; and general liability. The District is a member of the Colorado Special District Property and Liability Pool (“Pool”) for property and liability insurance.

The Pool was formed by an intergovernmental agreement to provide public officials, property, general and automobile liability coverage for claims up to \$1,000,000, except if the claim falls within the government immunity statute, then the coverage is \$150,000 per person and a \$600,000 aggregate claim. The Pool is reinsured for 80% of the first \$250,000 of all claims and 100% for claims in excess of \$250,000. The District may be required to make additional contributions in the event aggregate losses incurred by the Pool exceed amounts recoverable from reinsurance contracts. Any excess funds, which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula. Any settled claims are not expected to exceed coverage. A summary of audited statutory basis financial information for the Pool as of and for the year ended December 31, 2017 is as follows:

|                   |               |
|-------------------|---------------|
| Assets            | \$ 56,602,888 |
| Liabilities       | \$ 30,815,521 |
| Surplus           | 25,787,367    |
|                   | \$ 56,602,888 |
| Revenues          | \$ 20,713,694 |
| Expenses          | 18,721,378    |
| Net Income (Loss) | \$ 1,992,316  |

Edgemont Ranch Metropolitan District  
NOTES TO FINANCIAL STATEMENTS

December 31, 2018

---

**TABOR AMENDMENT**

In November 1992, Colorado voters amended Article X of the Colorado Constitution by adding Section 20, commonly known as the Taxpayer's Bill of Rights ("TABOR"). TABOR contains revenue, spending, tax and debt limitations which apply to the State of Colorado and local governments. TABOR requires, with certain exceptions, advance voter approval for any new tax, tax rate increase, mill levy above that of the prior year, extension of any expiring tax, or tax policy change directly causing a new tax revenue gain to any local government. Except for refinancing bonded debt at a lower interest rate or adding new employees to existing pension plans, TABOR requires advance voter approval for the creation of any multiple fiscal year or other financial obligation unless adequate present cash reserves are pledged irrevocably and held for payments in future years.

TABOR also requires local governments to establish emergency reserves to be used for declared emergencies only. Emergencies, as defined by TABOR, exclude economic conditions, revenue shortfalls, or salary or fringe benefit increases. These reserves are required to be 3% or more of the fiscal year spending (excluding bonded debt service) for fiscal years ended after December 31, 1994. At December 31, 2018, a reserve of \$7,316 was required for the General Fund.

Under TABOR, the initial base for local government spending and revenue limits is December 31, 1992 fiscal year spending. Future spending and revenue limits are determined based on the prior year's fiscal year spending adjusted for inflation in the prior calendar year plus annual local growth. Fiscal year spending is generally defined as expenditures and reserve increases with certain exceptions. Revenue, if any, in excess of the fiscal year spending limit must be refunded in the next fiscal year unless voters approve retention of such revenue.

The District's management believes it is in compliance with the financial provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of its provisions, including the interpretation of how to calculate fiscal year spending limits, will require judicial interpretation.

**DEFERRED COMPENSATION PLAN**

The District participates in the Edgemont Ranch Metropolitan District Lincoln Retirement 457(b) Governmental Deferred Compensation Plan administered by Lincoln National Life Insurance Company. The Plan is a single-employer defined contribution retirement plan covering all full-time employees of the District. The District's board authorizes the benefit terms of the plan and has the authority to amend those terms, subject to applicable regulations. The District contributes 5% of participant's compensation to the plan. Participants can contribute up to the maximum percentage allowed by the Internal Revenue Service. Participants are fully vested in all contributions. During 2018 the District contributed \$12,352 and plan participants contributed \$0.
